14. No excessive accumulation of dust around outdoor conveyors or around dry material storage silos?	Prudent					
15. No objectionable odors	Permit					
16. No objectionable noise	Prudent					
17. No impact on neighbors	Prudent					
18. No impact from neighbors	Prudent					
19. CEMs are in full operating condition	Permit					
20. Monitoring data is documented	Permit					
21. Permit requirements (See detailed list of permit conditions to be reviewed shown below.)	Permit					

MMA offers seasoned environmental management professionals with many years of experience in industry to pragmatically resolve clients' environmental issues. Notable projects include the development of a corporate EMS for an oil and gas company, technical support for regulatory negotiations for a major mining company and the development and subsequent approval of a Mine Operations Plan for proposed mining on State Land.
