

Introduction to Our Company

McVehil-Monnett Associates, Inc. (MMA) is an experienced consulting firm of atmospheric scientists, engineers and environmental specialists providing air quality and environmental management system (EMS) services worldwide. Our excellent professional staff consists of a team of air quality meteorologists, engineers and environmental specialists, averaging over 15 years of experience, with two-thirds having advanced degrees and/or professional certifications.

Since its inception in 1984, MMA has completed in excess of 1,000 projects for over 150 clients throughout the United States and 16 other countries. We serve the mining, oil and gas, electric utility and manufacturing industries, as well as government agencies and engineering and law firms. Over 90 percent of our work comes in the form of repeat business from satisfied clients who value our responsiveness and commitment to high quality, cost-effective service.

Serving our clients from offices in Denver, Colorado, MMA is a recognized leader in air quality permitting, modeling, monitoring, and litigation support services. To help meet our clients' ever-increasing needs for environmental compliance across all media, we also offer environmental management and planning services, which provide a valuable complement to our traditional air quality capabilities.

Specific services provided by our firm are outlined on the following page.

For more information on our services and/or to discuss a particular air quality or environmental management you are facing, please give us a call at (303) 790-1332.
